BACKERS

What you have here is our very best. Seriously. We spent years talking, designing, playing, breaking, redesigning, playing some more, more breaking… you get the idea. Many of you came on this journey with us, helping us make this game even better. This is the very best superheroic RPG we could create, and we are proud to put it in your hands. This is the game we want to play, and we're probably playing right now. We want everyone to know how much your support has meant as we moved through this process. We hope you have as much joy playing this as we had making it. Thanks!

—Len and Sean
